Innovative Long-Lifecycle Memory Supplier News

**SMART**semi™

October 2, 2024  
smartsemi.com

It's been a year since we did a lookback to make sure you're aware of the changes and progress we've made to becoming your premier supply chain partner. And what a year it's been! You wanted more and we delivered.

From an expanded catalog to enhanced services, added support and helpful market and application trends reports, we're living up to an aspiration to be more than a distributor.

If you're amongst the many satisfied customers that selected SMARTsemi in the past year – we say thanks! We'll continue to work hard to earn your trust. And to those that have yet try us out, it's time to give us a try. Order those free samples, download the specs and manufacturing documents you need to qualify, and place your orders today.

We look forward to another great year ahead.

MORE TEMPS

## Broader Range.

Our embedded memory components are commonly used in applications with challenging environments with extremes in heat, dust, humidity, vibration.

Over the past year we've qualified our initial industrial-grade products for operation in commercial and wide temperature ranges and testing to Automotive AEC-Q100 Grade 2 specifications.

Need rugged memory components, qualify SMARTsemi today.

MORE SERVICES

## Enhanced Service.

It's been a busy year for us! As part of our commitment to being your supply chain partner, we launched SMARTsemi SOURCEplus.

Now not only can you search, select, sample and source from us, but when your BOM has a component we don't offer, we'll search far and wide to source it for you.

It's what a supply chain partner does.

MORE SUPPORT

## Top Shelf Support.

Managing transitions to new products, get through last time buys, and redesigning around end-of-life and new specs is at best a headache.

Over the last year we launched an alert service to give our customers advance notice of changes and disruptions in the supply chain, updates to product documentation, and advanced new product introductions to get you in line for early samples.

This is white glove treatment from your supply chain partner and has been highly popular with our customers.
